INFORMATION DISCLOSURE STATEMENT

Sir:

This invention relates to a method of construction including positioning at least one support member in the ground, forming a foundation substantially adjacent the at least one support member, excavating ground beneath the foundation to a prescribed depth below the surface temporarily forming cavities or voids and supporting bridges beneath the foundations, excavating the supporting bridges and dropping the formed foundation to the prescribed depth. Structures such as walls may be constructed on the foundations prior to dropping the foundations and bracing members may be used to prevent deflection of the walls.

As authorized and encouraged under 37 C.F.R. §1.197-1.99, Applicant hereby cites as a means of complying with the duty of disclosure set forth in 37 C.F.R. §1.56, the following patents and/or documents, copies enclosed, which the Examiner should consider with respect to the above-identified United States Patent Application.
